Print this page. Unscramble the words and circle the words in the story.

Jesus had been to the synagogue and upon leaving he went to the house where Simon Peter and Andrew lived. There was a woman there who was sick with a very high fever. She was Peter's mother-in-law, the mother of Peter's wife. She didn't even feel like getting out of bed and they were so worried about her.

They asked Jesus to do something to help her. He stood over her and told the fever to leave her. And it did! In an instant she was completely well. In fact she felt so well, she got up and started helping with the serving of the guests. What a miraculous and immediate healing!

It was getting near the end of the day and as the sun was setting people began coming to the house bringing their loved ones who were sick and had diseases. They had heard of Jesus' power to heal. He had compassion on the people and healed all who were brought to him.

Not only were sick people brought, but also people who were possessed by evil spirits and devils. Jesus cast out the demons and as they came out of the bodies they began to cry, "You are Christ, the Son of God!" He told them to be quiet because he wasn't ready for people to know he was the Christ who was prophesied to come.
